refundable deposit. Existing non-Malaysian customer will have to top up to a RM1000

refundable deposit.

Comparison:

For DiGi, the monthly payments look to be lower. But then again, Maxis's iData plans are still cheaper, at RM50 and 99.

For both DiGi and Maxis, the iPhone's prices are almost similar. But depending on the plans you're opting for, Maxis could be cheaper when you opt for certain plans that go for 24 months when compared with the 24-months plans from DiGi. For DiGi you can extend your payments to 36 months.
